WE DO REAL ESTATE BETTER

THE PROPERTY CONCIERGE FORMULA

HOW WE USE *OUR* MONEY
TO GET *YOU* MORE PROFIT

There is no debate. Renovations increase the sale price of a house or condo. New and fresh sells for more than dated and worn; we all know that.

We're about to show you our simple formula for renovating your house or condo to sell with no money down and without having to deal with multiple companies just to get the best sale price for your home.

Renovating to Sell with No Money Down

Through the Property Concierge Program, we invest our money to update and renovate your home prior to listing and you don't pay until we sell.

Other realtors will tell you that should do this and you should do that, but they don't put their money where their mouth is. We do.

Other renovation companies are happy to help you get your house ready to sell. But you'll be paying upfront and then you'll have to go find a real estate agent to help you sell your property. We can do it all.

Because we're investing our own money, you can rest assured that our goals are the same as yours: doing the renovations and upgrades that will give you the best return, selling your home quickly, and getting you more profit from the sale. And the ease of only dealing with one company.

The 4-Step Process for No Money Down Renovations

1. Identify the renovations that will add the most resale value

- We tour your home and assess the opportunities to add resale value.
- The trick is finding the projects that deliver the highest value for the lowest cost. That means more money in your pocket.
- We will provide an estimate of the recommended renovation costs (but you don't pay until you sell)

2. Provide a before and after estimate of your home's value.

- Our real estate expert will assess the resale value of your home by doing a market review and assessing the current state of your home.
- We will then provide you with the estimated resale value after the recommended renovations.

3. Perform quality home renovations fast

- We then get busy performing the approved renovations and upgrades at our expense.
- Our team works fast, but the quality is second-to-none, and the finished job will stop potential buyers in their tracks.

4. Sell your home for more than you imagined

- Our real estate expert then stages your home and prepares the listing and marketing materials.
- Once sold, we take our fee for the renovation and traditional real estate listing fee from the proceeds of your increased sale price.

The end result is more money in your pocket and less work and hassle for you.

Why We Created the Property Concierge Program

We've seen a lot of people over the years sell their homes for less than they should have only because they lacked the right information. It dawned on us one day, that our unique experience gave us the ability to solve these problems and help people get what they deserve from the sale of their home.

That's why we created the Property Concierge Program. A way for people like you to get higher profits when selling without being out of pocket for the renovation costs and without having to deal with multiple companies to get it done.
